CRISIS HAS PASSED

Captains of Finance Easy Over Money Situation.

CONFIDENCE IS RESTORED

Threatened Trouble in the World of Finance Has Been Successfully Combatted and Tranquility Now Is Assured.

New York, Oct. 28.—The captains of finance, who with the secretary of the national treasury have been laboring night and day to preserve order in the banking world, held no conference Friday night, but went to bed early, confident in the belief that a threatened situation had been successfully combatted and that from now on the restoration of public confidence and tranquility would be speedily accomplished.

The principal difficulty throughout the week's excitement has been lack of currency. There was not enough actual money in the city to stand the tremendous decline without cutting down loans. The small banking institutions that closed this week have good supplies of gilt-edge securities in their vaults but they could neither sell them nor borrow money on them this week, simply because of the scarcity of cash, gold and silver money.

No apprehension was felt Saturday morning as to the result of Saturday's financial transactions.

The stock exchange and the banks were opened for business for only two hours and the stock exchange was not troubled by the money situation, as all the loans made Friday carry over until Monday under the ordinary rules of the exchange.

There were small lines of depositors in front of the Trust company of America and the Lincoln Trust company, but their number was not so great as at the same hour Friday.

NOT ON THE PROGRAM.

In a Burlesque, Actress Accidentally Wounds Herself with Pistol.

New York, Oct. 28.—Miss Blanche Ring Friday night shot herself in the hand and fainted from the pain on the stage of the Casino during a performance of "The Gay White Way."

In the second act she uses a revolver and blank cartridges in a burlesque with Jefferson de Angelis. Somehow her forefinger caught in the trigger while the cartridge exploded, burning and tearing her hand until she screamed and ran toward the wings, fainting before anyone could catch her.

Mr. De Angelis finished the scene without her and Miss Ring did not appear again until the third act when she went through her part with her hand in bandages.

COURTSHIP OF 21 YEARS.

Patient Wooing Is About To Be Brought to Happy Close.

New York, Oct. 28.—There is about to be a wedding in St. Patrick's church, at Richmond, Staten Island, which will bring to a happy close a patient wooing.

John Seaver, the prospective bridegroom, and Margaret M. Pfaff, the prospective bride, have had a courtship 21 years long, because of the faithfulness of each to an invalid father. Seaver is about 45 years old and Miss Pfaff is in the thirties. Seaver's father died about five months ago, aged 80, and Miss Pfaff's father died a few weeks ago, aged 75.

BEATTIE FOR PRESIDENT.

Milwaukee, Wis., Oct. 28.—The convention of [illegible] graphers [illegible] ing W. [illegible] of Washington, D. C., president; J. [illegible] of Cincinnati, first vice president and A. S. Ewing of St. Louis, third vice president.

Orville [illegible] of second vice president; Frank [illegible] Likes, of Chicago, and C. M. [illegible] Smith, of Salt Lake, were added to the executive board.

ROOSEVELT FOR SENATE.

It Is Said He Will Run If Taft Is President.

Washington, Oct. 28.—If William H. Taft is elected president next year President Roosevelt will accept under certain conditions, an election to the senate to succeed Thomas C. Platt. If anybody other than Taft is elected president, Mr. Roosevelt will seek some other field for his activities.

The president does not intend, of course, to become an active and avowed candidate for the senate in the closing year of his presidential term. At the same time, if the New York legislature sees fit to elect him to uphold the hands of President Taft he will not decline. He surely will decline, according to his present intentions, to uphold the hands of any other republican president.

When this became known it created no end of a flutter among Republican politicians in town.

The attitude of President Roosevelt toward the bulk of the presidential candidates of his own party as disclosed in this statement struck consternation to their friends. It was accepted by them as indicating that the president intends after the expiration of his term to reserve the right to make war from private life or from any public station he may be chosen to occupy upon his successor, unless that successor is Taft.

MASONS GATHER AT MACON.

Annual Session of Georgia Grand Lodge Begins on Wednesday.

Macon, Ga., Oct. 28.—Georgia Masons will turn their faces toward Macon for the next four days to attend the annual session of the grand lodge which begins next Wednesday. The advance guard is already here and the work of preparing committee reports is already under way. Dr. J. M. Taylor, of Lutherville, and Grand Treasurer J. M. Rushin, of Boston, Ga., arrived here Friday for the purpose of going to the special work of their departments before the session opens.

The indications are that by Monday night there will be fully 1,500 Masons in the city, ready to enter upon the work of the sessions of the grand lodge. There will be far more representatives of the Georgia lodges present than have ever attended such a session, this being due to the fact that the order has rapidly grown in recent years.

Plans will be perfected at the coming session for the remodeling and overhauling of the present Masonic temple on Cherry street. Committees having this matter in charge have already decided upon a recommendation touching this matter and the grand lodge will probably spend $25,000 in improvements.

Insufficient Evidence.

St. Petersburg, Oct. 28.—The trial at Terioki, Finland, of Topoloff, a member of the League of the Russian people, accused of the murder of Professor Hertzenstein, the member of the lower house of the First Russian parliament who was killed at his country home near Terioki on July 31st, has ended in the discharge of the prisoner on the ground of insufficient evidence. Lavaoff, a man who testified against Topoleff, was sentenced to five month's imprisonment for failing to give evidence earlier.

Ingram Pleased with America.

London, Oct. 28.—Dr. Ingram, Bishop of London, since his return from America, has been kept telling his friends of the delights of his visit and has been saying nice things about Americans. "I really had the time of my life," said Dr. Ingram. "The attention paid to me by President Roosevelt and respect shown by the American people generally, coupled with their delightful hospitality, has made a deep impression on me."

Hunt Succeeds Heinze.

New York, Oct. 28.—Announcement was made Saturday that Arthur P. Heinz, for several years president of the Aetna Indemnity company, has resigned and that Beekman Hunt, formerly vice president and general manager of the company, has been elected to succeed him.

HIS NARROW ESCAPE

Casual Remark Saved Man From Conviction of Murder.

IN DANGER DEATH PENALTY

Strong Structure of Proof Built Up by State Collapsed Like a Bubble Just as Case Was About to Go to the Jury.

Chicago, Oct. 28.—A casual remark in Judge Chetlain's court Friday saved a man from conviction of murder on circumstantial evidence.

Indeed, the state had presented such seemingly conclusive proof that Arkelo Serpico had killed Salvator Serpico that conviction and a death penalty were almost certainly expected.

This strong structure of proof built up by the state collapsed like a bubble when the case was about to go to the jury.

A casual question asked of Dr. Warren Hunter, coroner's physician, on cross-examination developed that Salvator Serpico was killed with a bullet from a thirty-two caliber revolver. The defendant's revolver was a 38-caliber.

Prior to that important testimony, Assistant State's Attorney Fleming had presented a chain of evidence that was apparently complete.

Against this array of evidence the defendant was able to present only a feeble defense. He took the stand and denied shooting. He admitted having drawn a revolver but was unable to explain the exploded cartridges. On cross-examination by Mr. Fleming, when asked to account for Salvator Serpico's death he said: 'Louis did it."

He could not tell who Louis was except that he was an Italian who had been present in the saloon and who had since fled.

Dr. Hunter was the last witness called. He expressed the opinion that death was due to shock and hemorrhage caused by the bullet wound.

"By the way, Dr. Hunter," Attorney Hanlon, for the defendant, asked, "have you the bullet that you found in the body?"

"Certainly," Dr. Hunter replied, and he handed the bullet to the lawyer.

"Why, this is a 32-caliber bullet!" Attorney Hanlon exclaimed.

The bullet was then placed in the revolver owned by the defendant and it rattled in the empty cartridge.

After only a short deliberation, the jury returned a verdict of not guilty.

SUSPECTS ARRESTED.

Believed To Be Bandits Who Held Up Great Northern Limited Train.

Spokane, Wash., Oct. 28.—With $14,000 in national bank notes concealed on their persons, at the points of drawn revolvers, surrounded by a squad of detectives, two rough-looking men, believed to be the bandits who held up the Great Northern Oriental limited train near Rondo siding, Mont., on Sept. 12, and secured $10,000 in greenbacks, threw up their hands and were arrested in a Great Northern dining car as it entered this city Friday night. When searched at the police station $14,000 was taken from their clothing.

The suspects gave their names as G. E. McDonald, 43 years old, and Ed Smith, 33.

Suit to Set Aside Patents.

Reno, Nev., Oct. 28.—The United States began suit Friday in the U. S. district court at Carson to set aside federal patents to 15,000 acres of land held by the Southern Pacific company in the White Horse mining district on the grounds that the land was fraudulently represented by the railroad company to be agricultural when it was mineral.

CONTEST IS WARM.

Campaign for Prohibition in Birmingham, Alabama.

Birmingham, Ala., Oct. 28.—The campaign for prohibition in this, the largest county in Alabama, reached fever heat Friday with the arrival of Mrs. Lillian M. Stevens, president, and Mrs. Annie Adams Gordon, vice president of the Woman's Christian Temperance Union, with headquarters in Chicago.

Chairman Sessions, of the prohibition committee, has issued a call for 15,000 women and children to be present at the polls on Monday and to take part in the parades to be held through the streets. Most of the schools of the county will close Monday.

Sheriff Higdon issued election orders Friday which provide among other things that no one shall go within 30 feet of the voting places, except the men voting.

Mayor Ward issued orders to have all saloons closed at midnight and to remain closed until Tuesday morning after the election. The step is taken with a view to avoiding possible trouble because of the heated state of the public mind. The campaign drawing to a fervid close is the most remarkable ever witnessed in the county, both sides confidently claiming a victory.

LUNCHEON TO CHANLER.

Lieutenant Governor of New York Is Entertained.

Atlanta, Oct. 28.—What will long be remembered by Lieutenant Governor Lewis Stuyvesant Chanler, and his party, consisting of Frank P. Morgan, the veteran newspaper writer of New York and Washington, and Julius Chambers, the Blooklyn Eagle special writer, as one of the most pleasant incidents of the day spent in Atlanta, was the luncheon tendered them at the Piedmont Driving Club by the directors of the Atlanta Fair association.

President H. H. Cabiniss, of the Atlanta Fair association, presided.

Wonderful story tellers were developed at this luncheon and no one apparently enjoyed the speeches and local hits more than did the guests.

Delightful short speeches were heard from many prominent men. Each of the local speakers spoke in the highest terms of the strong and forceful speech made by Lieutenant Governor Chanler in the grand stand of the state fair grounds just a few hours before.

Mr. Chanler was assured of the warmest and most cordial wishes of Atlanta, Georgia and the south as to his political future.

THE LOCAL MARKET IS ALL TO PIECES

So Declares a Prominent Alachua County Business Man.

WALL STREET IS TO BLAME

The Financial Panic in New York Has Been Carried to Such an Extent That It is Being Felt as Far South as the Sea Island Belt.

"There is no use talking, the present financial panic in Wall Street has certainly affected the cotton market to such an extent that the condition is sorely felt here," remarked Chas. W. Bauknight of Archer, one of the shrewdest business men in this section of the State, Monday. "The market has gone all to pieces, with the result that buyers are not making any offers at all for the present."

Mr. Bauknight utters a plain truth when he states that the market has "gone all to pieces," especially with reference to this section. Ten days ago the staple found a ready market at seven cents a pound in the seed, and growers had no trouble in disposing of all they could bring to market.

On Saturday of the past week a certain buyer of this city who has purchased large quantities of cotton this season at seven cents, was only offering five, and was not anxious to buy at that figure. One grower, a colored man, who had been offered seven cents for his product a week before, but who failed to bring it in, was very badly disappointed when this buyer informed him on Saturday that the thousand pounds he had brought on that day would have to be disposed of at five cents. The owner of the cotton refused to accept this price, and hauled his cotton back to the farm.

The market throughout the county is disrupted—in fact it is stated there are no offers at all now, and will probably not be until the situation in New York is settled.

TAKEN TO SOUTH FLORIDA.

Officer Came for O. Lancaster, Wanted in DeSoto County.

Deputy Sheriff P. W. Harward of Arcadia, DeSoto county, who came after O. Lancaster, arrested by Deputy Sheriff J. Lee Stokes near Tacoma Friday upon instructions from the authorities of DeSoto county, has returned to Arcadia with his prisoner.

Lancaster is charged in DeSoto county with the larceny of a domestic animal—a cow. He was reared in this section of the country, and is well known, especially in the south western section of the county, where he spent many years. He left this section however, going to South Florida and only returned a few weeks ago.

THE COMING STATE FAIR.

Intoxicating Liquors Not to Be Sold on or Near Fair Grounds.

Tampa, Fla., Oct. 28.—Throughout the entire State satisfaction is expressed at the fact that the Florida State Fair is to be held in Tampa from February 5th to 22nd—when the tourist season is at its fullest height—instead of in November. Thousands of tourists will then attend the fair, making the number of visitors from other States five or ten times larger than that of former fairs.

State fairs held in Tampa for three years past have proved to be grand successes in every particular, and especially in attracting homeeekers to various sections of the State. That of February will be on an infinitely larger scale, however; the attendance of homeseekers and prospective investors will be much larger; a large number of counties and individuals will be represented in the various departments of exhibition, and the horse races and other amusements will be of a higher class. The directors of the fair will positively allow no attraction of a cheap character on the grounds.

General satisfaction has been expressed at the fact that the directors will not allow the sale of intoxicating liquors on or near the fair grounds, all directors being unanimously opposed to such sales. The Tampa City Council, which has the legal right to prevent saloons being placed anywhere near the grounds, stands emphatically with the directors on this subject. No ill results have been reported from the sale of intoxicants on the grounds in former years, but the directors, out of deferrence to the views of thousands of Floridians—men, women and children—will under no circumstances countenance the sale.

Enthused over the prospects for good to Florida, the railroads have decided to grant low rates from all sections on account of the fair. This they will do in spite of the fact that the granting of such fares will affect their tourist business. Many prominent men are expected to attend the fair, including William Jennings Bryan, Governor Hoke Smith of Georgia, Governor Folk of Missouri, and others.

Every county in Florida should be represented.

SAYS IT IS FACT.

J. W. McCollum & Co. Confirm Guarantee on Hyomei, Cure for Catarrh.

The question having been raised as to whether or no J. W. McCollum & Co. will refund the money if a Hyomei outfit does not do all that is claimed for it in curing catarrh, they want to state positively that this guarantee is an absolute fact.

You can lose nothing by giving Hyomei a trial, nothing but the catarrh and that is good riddance.

The price of the complete outfit is but $1; nothing if it fails to cure. Get an outfit from J. W. McCollum & Co. today and begin its use at once.

A Disastrous Runaway.

A disastrous runaway occurred on West Liberty street about noon Monday, which resulted in the demolishing of a fine buggy belonging to the Gainesville Furniture Company.

The team, which was being driven by C. C. Cagle, was hitched in front of the building being erected by W. B. Taylor, when the horses became suddenly frightened and made a dash. Mr. Cagle, who was attending to some collections in the vicinity, witnessed the whole affair, but was powerless to do anything.

The horses ran to a point opposite the Elks' Club, when the buggy collided with a tree and was badly damaged.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

W. O. W. HOLD AN IMPRESSIVE SERVICE

Monument to Departed Sovereign Unveiled Sunday Afternoon.

ELOQUENT MEMORIAL ADDRESS

Procession Formed With About Fifty Woodmen and as Many Citizens and Went to Cemetery, Where Impressive Exercises Were Held.

One of the most impressive ceremonies ever held in this city was the unveiling of the monument to the memory of Sovereign J. J. Butler by Alachua Camp, Woodmen of the World, Sunday afternoon.

There were present at this ceremony about fifty members of Alachua Camp, together with an equal number of citizens who were interested in the proceedings.

The officers and members of Alachua Camp, in compliance with instructions from Council Commander Dr. J. M. Dell, assembled at the lodge room at 2:30 o'clock in the afternoon, where carriages were in waiting. A half-hour later, under command of Master of Ceremonies Sovereign J. Manasse, the procession started for the cemetery, where the exercises were to be held. The citizens, in carriages and buggies, filed in the rear, making quite a lengthy procession.

Upon reaching the cemetery the Woodmen formed the "open wedge" around the monument, while the widow of the deceased took her position at the foot of the grave. When the formation had been made Sovereign Manasse pulled the cord which removed the veil, after which Hon. Robt. E. Davis, also a Sovereign, delivered the memorial address. Col. Davis, as usual, was eloquent in his tribute to the order of Woodmen of the World, its principles, later touching beautifully upon the life and character of the deceased Sovereign.

At the conclusion of Col. Davis' remarks the wedge was broken, and the Sovereigns distributed flowers upon the half-dozen graves of their departed brothers.

The monument is a very handsome one, and, as is the custom of the order, was erected by Alachua Camp, of which deceased was a member. It is constructed of handsome granite, and its dimensions are about three feet wide, one foot in thickness and five feet high.

While these unveiling ceremonies were brief, they were among the most impressive ever seen here, the beautiful ritual of the Woodmen having been used in the same.

The procession to the cemetery was headed by a buggy bearing Master of Ceremonies Manasse and Acting Clerk L. A. Jernigan, the latter bearing a large and handsome United States flag, which is one of the emblems of the order.

THE MAN WHO WORRIES

Its Influence Upon Health.

A well-known physician relates the following instance: A patient suffering from some obscure pulmonary trouble called for a conultation and the symptoms were detailed at length.

For many years this man had not only consulted and treated with one physician after another, but he had read every book he could find on the subject of his trouble. His mind had been kept continually upon his ailment and in consequence his life was most miserable.

Had this man employed his mind with other subjects, taken plenty of fresh air, exercise, and built up his general health by taking our cod liver preparation, Vinol, which is made by a scientific, extractive and concentrating process from fresh cods' livers, combining with peptonate-of-iron all the medicinal, healing, body-building elements of cod liver oil, but no oil, he would have been a well and happy man all these years. Vinol purifies and enriches the blood, tones up the digestive organs, and strengthens every organ of the body to do its work as nature intended. We sell Vinol on a guarantee to return money if it fails to give satisfaction.—W. M. Johnson, Druggist, Gainesville, Fla.

Conductor J. W. Ray of the Atlantic Coast Line is in the city for a day or two.

W. H. Tison, who has been spending the past week or ten days in Worthington Springs and this city, returned to his home in Ocala yesterday.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

Col. and Mrs. H. F. Dutton have arrived from Vermont. Mrs. Dutton spent the summer in that State, her husband making occasional trips there during the time. Friends are glad to welcome them back again.

John A. King, L. A. Duncan and T. P. Fowler formed a trio of prominent citizens and business men of Lake Butler who came to this city yesterday. They had business connected with the United States land office.

Mrs. Claudia Townsend of Tampa, after a pleasant visit to her mother, Mrs. A. H. Leonard, in this city, has returned to her home. She was formerly here as Miss Claudia Bennett, and has many friends who were glad to welcome her again.

S. E. Baknight, one of Micanopy's well-known citizens, was a business visitor to Gainesville yesterday. Mr. Baknight formerly resided here for some time, and has many friends who are always glad to see him.

Cashier Strickland of the people's organized Citizens' Bank of Waldo spend a day or two recently in the city. He states that the new bank is meeting with the approval of the people of Waldo and vicinity, as the business being extended the institution will justify.

Miss Anne Butler, who has been in the office of Dr. Gordon H. Thomas for the past few months as stenographer, left this morning for Atlanta, where she has entered the Southern Dental College. Her sister, Miss Ethel Butler, is also attending dental college at Atlanta, which city she left yesterday morning for her home in Ocala.

No home is so pleasant, regardless of the comforts that money will buy, as when the entire family is in perfect health. A bottle of Orino Laxative Fruit Syrup costs 50 cents. It will cure every member of the family of constipation, sick headache or stomach trouble.—J. W. McCollum & Co.

The Gainesville Furniture Company, anticipating a cold snap, soon advertises in this issue of The Sun that there are just fifty heaters which they propose to sell at cost and put same up without cost to the purchaser. Read the advertisement and see how it is done. This is one of the largest and most reliable concerns in this section of the State, and it is no wonder that they are enjoying such a fine business.

Mrs. Lula Buchannon of Macon, Ga., has returned to her home, after a pleasant visit to her sister, Mrs. J. P. H. Bell, in this city. Mrs. Buchannon was formerly Miss Lula Gruelle, and has many friends here who were delighted at the opportunity to welcome her to her old home.

Among the visitors to Gainesville yesterday was J. Alex Little of Jacksonville, who is interested considerably in property in the West End. Messrs. Little and J. W. Patton left in the afternoon for Trenton on a surveying and prospecting tour, and expect to be absent about three or four days.

Joseph Tinsley, after spending a couple of days pleasantly with his wife and mother here, returned yesterday to Lakeland, where he has been making his headquarters for the past few days. He reports the movement of oranges rather slow from that section of the State, considering the season.

Friends of Miss Belle Sadler, who has been ill at Sautee, Ga., where she is occupying a chair on the faculty of Brenau College, will be gratified to learn that her condition is improving. Her mother, Mrs. Julia Sadler, was summoned to the bedside by telegram a few days ago, but found the patient much improved.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

Master Frank Douglas, upon whom a surgical operation was performed a few days ago at the Odd Fellows' Sanitarium, and who has since been critically ill, is slowly improving, which will be gratifying information to friends of the little man and his parents. For two days it was thought he could not live, and almost every hope was given up for him; but a change has come for the better, and if it continues the patient will yet survive.

C. C. Frasier is in the city. He came to visit his daughter, Miss Lila, who has been confined at the Odd Fellows' Sanitarium for the past three weeks from an operation for appendicitis. Friends of the young lady will be pleased to learn that she has about recovered, and will return to her home in a day or two. Miss Frasier began the term of the Arredondo school, where she taught only a few days before taking ill. She was quite popular among the patrons and pupils of the school, all of whom hope to see her resume her duties in a short time.

Hon. J. M. Rivers, State attorney for the Eighth Judicial Circuit, has returned from Palatka, where he has been attending the session of the circuit court of Putnam county. Col. Rivers succeeded in securing twelve convictions out of nineteen criminal cases, one of which was the case of the State vs. Vance Johnson for the murder of John A. Germond at Edgar a few months ago. The verdict was returned for murder in the first degree, without recommendation. This was the first verdict of that gravity rendered in Putnam for more than [illegible] years.

Among the prominent transportation men visiting Gainesville yesterday were S. C. Dodgston Jr., assistant general passenger agent of the Seaboard Air Line, Jacksonville, and C. P. Oakley of Tampa, city passenger and ticket agent of the Seaboard in the South Florida city. Mr. Oakley, who is regarded as one of the most efficient young railroad men in the State, was recently promoted to the position he now holds, and is giving the company excellent satisfaction. The Sun acknowledges an agreeable call from these gentlemen, who are here in the interests of their line.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason *why* it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed *free* to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

GEO. W. HAWTHORN.

The subject of this sketch was born in Macon county, Alabama, about fifty-seven years ago, and departed this life at his home near Hawthorn, October 23rd, 1907, after an illness of several weeks with heart failure. He came with his parents to Alachua county in the early fifties, when quite a small child, and had lived here continuously ever since, having died within sight of the old homestead. He leaves a wife who, before marriage, was Miss Fannie Morton, and a daughter, Hattie, to both of whom he was much devoted. He was truly a loving husband and an affectionate father, and will be sadly missed by them. He also leaves two brothers, B. M. and E. L. Hawthorn, five sisters, Mrs. S. N. Hammond, Mrs. F. F. Paulling, Mrs. R. H. Stringfellow and Mrs. L. A and R. E. Johnson. He was a remarkable man in many respects. Though a cripple, he was energetic and diligent in his efforts to make his daily affairs a success. He was a genial, whole-souled fellow, was full of hospitality, and his friends and the stranger were always welcome guests to his home. He often attended religious service with his family, and seemed interested in the worship. He did not claim perfection—he had his faults and his weaknesses, but the good in him overbalenced the bad.

His body was laid to rest in the Hawthorn cemetery, and was witnessed by a large host of friends and relatives. Beautiful wreathes of flowers covered his grave.

Funeral services conducted by our good brother, Rev. B. R. Moseley, which were appropriate and touching.

Hawthorn, Oct. 28. J. E. R.

Killed by Automobile.

New Orleans, Oct. 28.—W. A. Aron, president of the Alabama and Eastern Railroad, and former secretary of the Harrisburg, Miss., Mercantile association, was killed Friday night by being run down by an automobile.

Some would-be frenzied financiers have been forced out of the game, but it took Wall Street and the favored banks an awful jolt to get rid of them.

The President may depend upon the hearty support of Senator Aldrich in his effort to prevent a Democratic landslide in the next Republican convention.

Mr. Cleveland is getting better. If the disagreement of physicians he may conclude to attribute it to the luck supposed to attend even numbers.

Every man has inherited a million. A Mexican gentleman has one in his life. This is the average Chicago man. The advantage of keeping out of jail is doubtless it won't.

Chicago imagined the stuff to eat in hotels and restaurants on the route of the Panama Canal to be pretty bad, but we don't think it was so bad that it would put the bills of fare in cipher exclusively.

GOVERNMENTS AS COLLECTORS.

The assurance of two such eminent authorities as Secretary Root and John W. Foster that the Hague Conference was not a failure, ought to go far toward establishing that fact, however skeptical the mere man in "the street" is of the outcome. Both Mr. Foster and Secretary Root lay stress on an accomplishment that is of especial interest to Americans, that is the agreement of the conference to respect the so-called Drago Doctrine. This is a supplement to the Monroe Doctrine and dictates that no foreign power shall attempt to collect debts by force from American territory. This was brought about by the numerous attempts that have been made by foreign powers to blockade ports and administer custom houses of small South American States that have defaulted in their bond indebtedness. Europe has a great deal of money of her subjects tied up in South America. Some of the small States have willfully, and some unavoidably, defaulted on these obligations. But it was pointed out to the members of the conference that the thing that attracted European capital to South America was high interest. Lenders could place their money in many places in the civilized world where it would be absolutely safe at a low rate of interest. But many of them, attracted by the high rate, have invested in South America. The Hague holds that financial adventurers who take risks of that sort ought to be willing to abide by the consequences, and not make their governments debt-collecting agencies. The United States takes that view of the case and has managed to argue the majority of the powers into the same frame of mind. So debt-collecting by force in South America is hereafter a prohibited game, and with it goes much of the danger of territorial aggression. This much the Hague has accomplished, and the American statesmen seem to think it is at least something to pay for the summer's work.

That great South Florida newspaper hustler, Willis B. Powell of The St Petersburg Independent, has again done himself proud. The issue of The Independent of October 26th is styled the "Tourists' and Homeseekers' Edition," comprises three sections of eight pages each, and is printed from The Independent's own building, in which Mr. Powell has just installed an up-to-date printing plant, including a linotype machine. The paper is undoubtedly the most valuable publication of the kind ever issued in South Florida, and reflects great credit upon the newspaper genius (for Powell is a genius in that line) who got it out. We have carefully preserved The Sun's exchange copy in the editor's library.

Mr. Bryan was greeted by a large audience in New York and made one of his finest efforts. He modified his general attack upon the great newspapers of the country by saying "some, not all," of the owners employ brilliant editors to chloroform their readers while they pick their pockets. Could Mr. Bryan have had John Temple Graves in mind, who Mr. Hearst has just made editor of The American, when he thus attacked the metropolitan press?

"Put yourself in Swarthmore College's place, which was offered $7,000,000 to give up athletics for $3,000,000," asks The New York Mail. Sure we would; we'd do it for $2,999,000.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

A number of persons in Alachua county who made application for pension under the law enacted by the last Legislature are growing restless because they have not received warrants for the past quarter. They should bear in mind, however, that the State Board of Pensions have some ten thousand applications to pass upon and it is no small job. If your claim is allowed you will receive pay from date of filing your application, but you should not mistake the receipt of a card from the secretary of the board stating your claim has been filed for the statement that it has been approved. You will be notified as to final action on your claim at some future time, and until then you need not expect a warrant.

We like to see enthusiasm. But The Orlando Reporter-Star suits us too well in that regard when it exclaims: "More people should go into the chicken business. At prevailing prices chickens ought to bring $20,000 to the acre if planted close together." We wish to solemnly remind our contemporary that when chickens are in a condition to be planted the market for them is always "sluggish"—nothing doing, in fact.—Times-Union.

The friends of John Sharp Williams, the Democratic leader in Congress, are suggesting him as the most available candidate for President for the Democracy to unite upon. Mr. Williams has the Democratic requirements for high position, for he is both able and honest, and probably the hardest worker in Congress, with a knowledge of books and men equaled by few.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

W. C. T. U. CONVENTION.

Atlanta Wins Next Meeting—Old Officers Are Re-Elected.

Columbus, Ga., Oct. 28.—The jubilee convention of the Georgia Woman's Christian Temperance union came to an end Friday evening, the closing feature being a contest in which Georgia girls competed in a declamation contest for a gold medal, the winner going to Nashville to represent this state in the diamond medal contest before the national convention of the W. C. T. U.

A great deal of business was packed into the closing day of the session. During the morning a memorial service was held. A feature of the afternoon session consisted of reports from the county presidents.

The old officers of the Georgia Woman's Christian Temperance union were re-elected as follows: Honorary president, Mrs. Jennie Hart Sibley, Union Point; president, Mrs. Griffin; corresponding secretary, Mrs. Mary Harris Armor, Eastman; vice president, Mrs. T. E. Patterson, of Griffin; corresponding secretary, Mrs. Milton H. Edwards, of Eastman; recording secretary, Miss M. Theresa Griffin, of Columbus; treasurer, Mrs. R. E. L. Harris, of Sparta.

Atlanta won the 1908 convention. Invitations were extended by Savannah, Albany, Madison and Thomson also, but there was a strong sentiment that the next convention should be held in the capital of the state.

Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Autoists Arrested in Charleston.

Charleston, S. C., Oct. 28.—Cases have been made out by the police department against a number of prominent citizens for exceeding the speed limit and in a few days the cases will be called for trial in the recorder's court. The cases have been made for the past ten days and on account of the absence of corporation counsel Moffett, who has just returned to Charleston, they have not been heard. The ordinances limit the speed of automobiles to ten miles on a straight run and four miles turning corners.

SPECIALIST PRESCRIBÉS CUTICURA

A Famous French Specialist on Diseases of the Skin Prescribes Cuticura as the Most Effective Remedy Known to Him, Charging as His Fee 100 Francs ($20).

ALSO PRESCRIBED IN HOSPITAL SAINT LOUIS

"Gentlemen: You may be pleased to learn that a patient suffering from an irritation of the skin, caused by motoring, on consulting a noted physician in Paris, for which a fee of one hundred francs (twenty dollars) was charged, was advised to use Cuticura, which advice, although received with astonishment, was followed and resulted in a perfect cure. (Signed) Lewis Gower, 1123 Broadway, New York, U. S. A., December 16, 1906."

French physicians, particularly those making a specialty of the treatment of skin diseases, have for many years regarded Cuticura as a specific and have prescribed it freely. It enjoys the rare distinction of being prescribed in the Hospital Saint Louis, Paris, one of the largest and most famous hospitals in the world devoted exclusively to the treatment of diseases of the skin.

Mother Of Ten

Always Kept Cuticura Ready for Children's Skin and Scalp Troubles.

"I wish to add my voice to the praise of Cuticura Remedies. I am the father of ten children, whose mother is dead. In our homes in England and America, she kept in her little medicine chest, always on hand, and often used to use the Cuticura Remedies, and they brought the best of results in children's skin and scalp troubles. These children are all grown and scattered and I cannot recall any specific cases of cure, but I do know that I have spent remarkably little in doctors' fees. George W. Rugby, 62 N. Clark St., Chicago, Ill., Oct. 25, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. THREE PERSONS KILLED.

Fatal Accident on Underground Railway in London.

London, Oct. 28.—Three persons were killed and a dozen injured Saturday in a rear-end collision at the West Kensington station of the Metropolitan Underground railroad. The rear train, it appears, did not see the signals in a fog and crashed into a train standing at the station.

This is the first accident of the kind since the London lines were electrified, when a system of electric signalling was installed, which the company claimed would absolutely preclude the possibility of such a catastrophe.

SEA-GOING TRAINS TO RUN SOON

Knight's Key Will Be Terminal of East Coast Railway.

WORK IS BEING COMPLETED

First Section of All-Rail Route to Havana to Be Opened in January, 1908—Steamers Will Be Run From Knight's Key to Havana.

New York, Oct. 28.—The announcement was made here today by representatives of Henry M. Flagler that the ocean-going railroad which he is building from the Florida mainland to Key West will be opened to traffic as far as Knight's Key, 109 miles south of Miami, on or about January 15 next, and that steamers will be put in operation from that point to Havana. This decision to open the road to traffic for the greater part of its course a year ahead of the time set for its final completion is Mr. Flagler's reply to the reports that the building of the road has been given up.

"The road has not been abandoned and there is no intention of abandoning it," said Vice-President J. R. Parrott, who is in general charge of the construction. "On the contrary we expect to have trains running as far as Knight's Key with steamships operating between that point and Havana by the middle of January. Knight's Key, which is to serve as the temporary terminus of the ocean extension, is about two-thirds of the way from Miami to Key West. The opening of this section of the line to traffic does not mean, however, that only two-thirds of the work is completed. Fully 80 per cent of the land work between this point and Key West is finished. Nor is it true that any engineering difficulties have been encountered that will prevent the completion of the lower part of the extension. Every engineering problem connected with the building of the bridges that will carry the line over the open water sections on this portion of the route has been met and solved in building the part of the road already finished.

"Most of the material required for the completion of the ocean line has been delivered and paid for. It is true that the cost of the road thus far has greatly exceeded the estimate, as has been reported. The road has been built within the estimated cost and while it is impossible in work of this nature to practice all of the economies in ordinary land construction the completion of the line is in no way beyond the financial ability of Mr. Flagler."

The Key West extension of the Florida East Coast railroad which Henry M. Flagler projected during the Spanish War for the purpose of bringing Cuba into more direct connection with the United States, and on which he had an army of between three and four thousand men employed for two years, differs in many respects from any railroad ever before built. More than a hundred miles of it will be practically at sea following the line of the Florida Keys from the mainland to Key West. All of the material employed had to be mounted on barges and the workmen employed in floating dormitories. Some sections of the work. All supplies and material were transported from the mainland and a large fleet of boats is employed in the construction. The road is reported to be ahead of schedule time and will shorten the journey between the United States and Havana from twelve hours and the duration of car ferries from Key West to the Cuban capital when it is completed. It will be the only all-rail route between the United States and the island of Cuba.

Justice Colman's Court.

There was "something doing" in Justice Colman's court Monday for the first time in several days, when Hattie Smith, who had already passed through the embarassment of the city court, was arraigned upon a charge of disorderly conduct.

Estella Jones, another colored woman, was the prosecuting witness. She stated that Hattie "cussed" her, and otherwise treated her very unladylike. The Justice believed what she said, as the court imposed a fine of $10 and cost or three months.

The fine was paid.

Henry E Jones of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine. J. W. Swamp-Root

S.S.S. MADE FROM ROOTS AND HERBS

A SAFE AND RELIABLE BLOOD PURIFIER

At the time of our forefathers the forests and fields were the only laboratories from which they could procure their medicines. They searched out and compounded the different roots, herbs and barks into remedies, many of which have been handed down to succeeding generations, and continuously used with satisfactory results. Among the very best of these old time preparations is S. S. S., a medicine made entirely from roots, herbs and barks, in such combination as to make it the greatest of all blood purifiers. This absolute vegetable purity of S. S. S. makes it the one medicine that may be used without fear of harmful results in any way. Most blood medicines on the market contain mercury, potash, or some other strong mineral. These act with bad effect on the system, upsetting the stomach, interfering with the digestion, affecting the bowels, and when used for a prolonged period of time often cause salivation. No such effects ever result from the use of S. S. S., and it may be taken by children as safely as by older people. For Rheumatism, Catarrh, Sores and Ulcers, Malaria, Scrofula, Skin Diseases, and all other troubles caused by impure or poisoned blood, S. S. S. is a perfect remedy. It goes down into the circulation and removes all poisons, impurities, humors or unhealthy matter, and makes the blood pure and rich. It eliminates every particle of the taint of inherited blood trouble, purifies and strengthens the weak, deteriorated blood, and establishes the foundation for good health. S. S. S. is Nature's Blood Purifier, and its many years of wonderful service, with a steadily increasing demand for it, is the best evidence of its value in all blood troubles. Book on the blood and any medical advice free of charge.

L. A. Vidal of Port Inglis and E. F. Vidal of Newberry have returned to their respective homes, after a brief but pleasant visit to their brother, J. H. Vidal and family, in this city. E. F. Vidal is a prominent druggist of Newberry.

Mr. and Mrs. W. S. Yearwood and children of Melrose arrived in the city yesterday. The former returned to his home in the afternoon but Mrs. Yearwood and children will remain here for several days as guests of Mrs. Yearwood's sister, Mrs. J. H. Keller, East Arlington street.

F. W. Weitman, the clever advance agent of the C. W. Park Shows, has arrived in the city for the purpose of arranging for the appearance of this favorite aggregation for one week here, beginning next Monday. This will indeed be good news to the Gainesville public as the Park's are favorites here.

Chas. de Martine, deputy U. S. collector of revenues, has returned from an official visit of several weeks' duration to points in Northern and Western Florida. Mrs. de Martine is still at White Springs, where she has been sojourning for some time and where she will remain probably for another month.

Dorsett Sparrow and Bruce and their brother are again in camp on the Suwannee near Jasper after an absence from this section of several weeks. These people are well known throughout this part of the State and have been regular visitors for the past several years or more. They are different from the average fishing traders and the good people of North Gainesville always extend them a cordial welcome.
